

About us (https://www.tootalshop.com/en/about_us)

Tootal Fabrics (Holland) B.V. has been a global player in the textile trade for more than 50 years. We believe in the key competence of Tootal Fabrics; A great and extensive shirt/blouse fabric collection combined with the best stock service in the market. An easy ordering system and very efficient logistics, guarantees fast worldwide deliveries. Thanks to excellent strategic partnerships with leading state of the art textile mills, our in-house Italian and in the Netherlands based design studio and product development providing quality fabrics, enable us to offer our clients the service they require. That is our recipe for continued success for all fabrics.

Our specialities

Our company specialises in, amongst others, fabrics for men's shirts, ladies blouses and corporate wear. The fabric we supply is used to make formal dress shirts as worn by the corporate market, as well as more casual shirts for leisure wear. We broaden our horizons constantly. We have launched an increasing number of specific fabrics for ladies blouses in Tootal's collections and we have a corporate identity workwear collection, amongst others.

To maintain and expand our network, we focus on the demand from our clients and we monitor market developments closely.

Good relationships with our strategic partners and long-term partnerships with our suppliers in the far east are important for achieving our collective goal; to offer high quality fabrics.

Tootal is located in Enschede, the Netherlands, where our warehouse offers space for over 10 million metres of fabric. From this central location in Europe close to the largest sea ports in the world, namely Rotterdam, Hamburg and Antwerp, orders are shipped to over 80 countries across the world every day.

Amsterdam Schiphol airport, which is situated nearby, is also used for air freight and of course we do use all major courier services like UPS, FedEx, DHL, GLS and TNT. Our stock-service, quick lead-times to prepare orders, combined with our well-organised logistics operations, enable us to deliver fast to all regions worldwide.

At Tootal we understand 'Speed to Market' is the name of the game and we therefore, besides our stock-service from our premises in The Netherlands, also offer the possibility of so-called "ex-mill" deliveries as well.

Our customers (https://www.tootalshop.com/en/our_customers)

Most of the worldwide garment industry places increasingly high demands on the quality of clothing. Tootal Fabrics meets these demands and supplies from stock a wide range (3,000 + articles) of high quality fabrics, primarily for shirts and blouses. Our worldwide deliveries, quick delivery times, NOS guarantee and outstanding quality offer a strong foundation for a long-term B2B relationship in fabrics.

Customers worldwide

Customers in Europe, Africa, the Middle East, Southeast Pacific and North-, Central- and South America form a large, loyal international customer base. It is important to us that every customer has direct and quick access to our collection. We therefore offer customers worldwide an extensive network of local Tootal representatives/agents and distributors, combined with direct online availability of our entire collection and regular visits to customers by our own sales staff.

We supply to producers of shirts and blouses for fashion, wholesalers, retail, textile producers, weaving mills and printers. In addition, we are a partner of shirt and blouse expert suppliers who specialise in corporate identity, supplying custom-made workwear and uniforms to institutions such as:

- Police and customs authorities.
- Airlines.
- Government institutions.
- Banks.
- Public transport providers.
- Security companies.
- Railway companies.
- Prisons.
- Shipping / Cruise Lines.
- etc.

Types of fabrics

Customers can contact us for shirting and blouse fabrics from our standard and seasonal collections. We offer a wide variety of piece dyed and yarn dyed fabrics, as well as printed fabrics including digitally and rotary printed. A collection of lining and interlining fabrics completes the product range. Tootal Fabrics also supplies the textile industry, including textile finishing companies, with a high quality and up-to-date collection of loom state and prepared for printing / dyeing fabrics (PFP/PFD) for textile printers. Read more about our collections here.

Why Tootal Fabrics

Large and worldwide customers choose for Tootal Fabrics (Holland) B.V. to supply their fabrics because of our key selling points: a wide choice of fabrics, consistently superior quality, large stocks with a N.O.S (never-out-of-stock) guarantee, no minimum order requirements, competitive prices, excellent logistics service and provision of credit if insured to finance our customers' supply chain.
